

53' EVANS BOXCAR

INSTRUCTION MANUAL

ART-50000 - 01

ARISTO-CRAFT TRAINS

103001 NEW

Dear Model Railroader,

This product is a highly detailed #1 GAUGE, 1/29th Scale model railroad 53' Evans Double Plug Door Insulated Box Car. Suitable for both indoor and outdoor operation, it realistically replicates a prototype manufactured by the Evans Railcar Company, of Blue Island, Illinois, from 1969 until 1977. Most of these cars are still operating on the North American railroad systems.

Should you have any questions regarding operation, proper usage or maintenance required for this or any other ARISTO-CRAFT TRAINS products, please contact us at the following address:

ARISTO-CRAFT TRAINS / Polk's Modelcraft Hobbies, Inc.

698 South 21st Street

Irvington, NJ 07111 USA

Tel: (973) 351-9800 Fax: (973) 351-9700

e-mail: aristo@mindspring.com

Our customer service department phones are open from 10:00 AM to 5:00 PM Eastern time, Monday through Friday.

FEATURES

Detailed underframe and air brake system components
Sprung roller bearing style trucks with rotating caps
Operating AAR design knuckle couplers
Separate end and side ladders
"See through" end platforms

TRUCKS

These trucks are miniatures of the Barber S-2 style of modern roller bearing trucks. The end caps on the axles rotate with the wheels, each truck has six springs and there are replaceable bushings in each of the journals. These bushings may be lubricated, if necessary, using a good quality, plastic compatible oil.

COUPLERS

Loop-style couplers are enclosed as a spare accessory. The operating knuckle couplers on all ARISTO-CRAFT TRAINS freight cars are designed based upon the AAR style knuckle used on all major North American Railroads.

NOTE: These knuckle couplers may not operate automatically when attempting to couple ARISTO-CRAFT TRAINS products to knuckle couplers used by other model railroad manufacturers. Couplers may have to be joined by manually coupling the knuckle on each car in a closed position by lifting one end coupler and inserting the closed knuckle onto the

ARISTO-CRAFT TRAINS knuckle coupler. This type coupler works equally well from either end of the freight car and can be uncoupled automatically by using an LGB* designed uncoupling device. The couplers may also be operated manually by pressing upward on the small tab below each coupler assembly. Should you prefer to use the loop-style coupler, this conversion can be made easily and quickly by unscrewing the single screw that holds the AAR coupler to the truck arm and attaching the loop-style coupler using the same screw. Both style couplers are attached to truck arm at a swivel base. When operating railcar, this enables coupler(s) to articulate when encountering sharp radius curves or switches. Couplers will center automatically while car is in motion. Manual centering is accomplished by exerting light pressure on knuckle/loop; articulated joint and returning knuckle/loop to center.

LIMITED WARRANTY

All ARISTO-CRAFT TRAINS products are under warranty for five (5) years from the date of purchase against defects in workmanship and/or materials. Proof of purchase *may be required* by ARISTO-CRAFT TRAINS.

This warranty is void and does not apply to any product and/or parts and components which have been improperly installed by the purchaser/owner, abused or damaged in any way through improper operation such as but not limited to derailment, repairs or modifications performed by non-authorized service centers or technicians.

SERVICING

Should your ARISTO-CRAFT TRAINS product require warranty service, please return it in the original box, if possible, protected by a proper shipping carton. Send the product fully insured and prepaid. ARISTO-CRAFT TRAINS will not be responsible for any loss or damage incurred during shipping. Be sure to include a brief, but thorough explanation of the problem, together with your name, street address (no Post Office box please), city state or province and country, if outside of the United States. Also include a daytime telephone number so that we may contact you if necessary. Your return address should be clearly marked on the outside of the shipping carton.

Payment for shipping and handling, in U.S. funds, is \$20.00 and should be included. Your check or money order should be made payable to: Polk's Modelcraft Hobbies, Inc. Do not send cash. If your item is not covered by warranty service, you will be contacted and a repair estimate given before any work commences. Warranty covers manufacturer defects, not normal wear and tear.

The shipping address to be used for returns is as follows:

ARISTO-CRAFT TRAINS / Polk's Modelcraft Hobbies, Inc.
Customer Service Department
698 South 21st Street
Irvington, NJ 07111 USA
Tel: (973) 351-9800

Written confirmation of receipt of returned items will be sent with estimated repair time by the ARISTO-CRAFT TRAINS Customer Service Department.
